1 Streetlight 11 by Osram
This range of luminaires purports to increase public safety through homogenous lighting, cut down energy consumption by up to 80 per cent and reduce light pollution due to its precise alignment. The smart city and smart city ready options come in three sizes for mounting heights of 3m to 12m, two colour temperatures and diverse control possibilities. osram.com

2 Etta and Etta Eyelid by John Cullen Lighting
These miniature LED lights have a 46mm diameter and colour rendition of CRI 90 for shelves, cabinets and kitchens. The reflector is in black for a more consistent true colour of light output. The Eyelid has precision-engineered low glare, while Etta is available with a surface mount collar. Both come in white, bronze and aluminium. johncullenlighting.com

3 RainSelect by hansgrohe
A convenient and sleek control unit for overhead showers, the RainSelect features 70mm x 70mm switches, with dials for water volume and temperature, a porter unit for the hand-held showerhead and a hose connection, in a metal or glass finish with a metal rim. There are two models to choose from, as well as a separate solution for in-bath showers. hansgrohe.com

4 norament 926 special edition by nora systems
The German flooring provider celebrated the 50th birthday of its pastille rubber floors by adding a new colour. For the special edition, shimmering particles of granite are incorporated into the stone-grey rubber tiles. nora's resilient flooring has high sound absorption and slip resistance, and is available in 20 standard colours. nora.com

5 Ruckus by KI
Created with student engagement and comfort in mind, this seating collection includes task, four-leg and stack chairs, and stools in two heights. The chair's backrest also functions as a work surface. The fibreglass reinforced polypropylene seat and backrest are available in 24 standard colours and the base in 31 finishes, with an option to add upholstered seat pads. ki.com
