▶ Saville sets new standard in excellence

Specialist audio visual integrator, Saville Audio Visual confirms the company's position for setting new standards in technical proficiency and unwavering customer

support by successfully completing the InfoComm International AV Provider of Excellence qualification.

One of only three UK-based audio visual companies to attain the recognition, Saville sales and marketing director Andy Dyson commented: "this is a great achievement for the company and a positive industry recognition of our total commitment to continuing investment in staff development and the delivery of excellent customer satisfaction".

▶ LCC HAMMERS HOME NEW CONTRACT

LCC Support Services has renewed its contract with The Hammers, West Ham United FC (WHUFC). Following 10 years of cleaning its Upton Park stadium and the Club's Essex training ground, LCC has won the contract for the WHUFC leased areas of the new Queen Elizabeth Olympic Ground at Stratford, East London. Stadium cleaning includes all offices, players' lounge and meeting rooms and is a 6 day service with 7 days service at the Club shop and the Rush Green Road, Dagenham first team training ground.

For further information on LCC Support Services please contact LCC on 01277 268899. info@lccss.co.uk, or www.lccss.co.uk

▶ NEW CLOSE CONTROL ADIABATIC HUMIDIFIER

The new Condair DL in-duct adiabatic humidifier offers the accurate humidity control normally only available from steam humidifiers, but with the low energy performance and evaporative cooling benefit of a cold water system. It also incorporates many anti-microbial features that make it one of the most hygienic humidifiers available.

The Condair DL is a hybrid humidifier that combines spray and evaporative technologies to maximise moisture absorption and provide humidity control at $\pm 2\%RH$. A water treatment system provides pure water to a grid of nozzles located inside the duct.

▶ KI'S 800 SERIES NOW RFID-ENABLED!

Designed and manufactured in the UK, KI's 800 Series is widely recognised as the best storage system on the market. With over 4 million units sold since 1996, this widely popular collection of lockers, cupboards, lateral filing drawers and pedestals now comes with RFID-enabled locks, eliminating the need for keys.

Offered in a range of models - PIN code only, RFID/NFC only or RFID/NFC and PIN code combined - these locks highlights cost-efficiency and security. KI's RFID locks makes spending on replacement keys redundant and minimize the risk of keys falling into the wrong hands.

These locks truly embodies modernity and allows flexible use. They can be set up to work in conjunction with existing security and ID measures, making usage easy to audit and eliminates any need to duplicate access devices. While on personal storage units Oyster cards, NFC-enabled smart phones, contactless payment cards, or existing security passes can all act as unlocking devices (subject to compatibility).

KI's RFID locks are currently available in white and black but can also be customised to match surrounding décor and company logos.

▶ JS AIR CURTAINS ON BOARD AT BRITISH AIRWAYS i360

JS Air Curtains has supplied twelve Mini Optima air curtains for the doorways at the prestigious British Airways i360 observation attraction in Brighton to maintain the internal temperature for visitors and staff.

The stylish Mini Optima air curtain was specifically chosen as the best fit for both

the curved inner and outer doorways to keep the cool conditioned air in during the summer and the cold air out during the winter. Each air curtain supplies up to 2,150m³/hr of air and up to 9kW/h of heat.

JS Air Curtains, the UK's leading air curtain specialist, supply an extensive range of air curtains for all commercial and industrial applications.

You can find out more by visiting the company's website at www.jsaircurtains.com.
