

## KI's Postura+ helps transform Mosley Academy classroom into a colourful, functional and child-friendly environment

With the help of KI Europe's Postura+ chairs, educational furniture specialists Incube Ltd designed the layout for a classroom in Mosley Academy, a primary school located in Burton-On-Trent, Staffordshire, which resulted in a colourful, functional and child-friendly environment.

Having worked with Incube in the past, Matthew Baxter, the Head teacher of Mosley Academy, was keen to invite the company to create an eye-catching furnishing scheme for a classroom in his new school.

It was crucial that the furniture would provide everything required for the sake of practicality, as well as having an engaging and vibrant feel that would enhance the school experience for the children and teachers alike. Using a newly developed furniture range called Colourful Classrooms, which includes KI's Postura+, Incube's highly experienced team was able to create a bright and stimulating space.

KI's Postura+ chairs in Lime Zest, Grape Crush and Tangerine Fizz were chosen for the project as they offer a bright, yet budget-friendly seating option from a trusted and recognised supplier. The chair's stackability was also a very appealing feature as it allows for versatile configurations in a multipurpose classroom.

Matthew Baxter comments: "The furniture has transformed our learning environment. Both the children and staff are desperate to work in the newly-refurbished classroom."

KI's iconic Postura+ chair was the first one piece polypropylene chair introduced to the UK education market in 1996. With a 20-year warranty, Postura+ remains the only one-piece poly chair that has been proven to outlast its warranty. The chair is ergonomically designed to promote good posture and provide exceptional comfort. Injection moulded in the UK from 100% recyclable high impact-resistant polypropylene, Postura+ is available in 16 standard colours.

KI Europe's furniture helps the world's leading organisations create happy, healthy, high performing working and learning spaces for their people. Part of KI (Krueger International, Inc.), one of the world's largest independent furniture manufacturing groups, KI's EMEA headquarters in Central London is supported by an established network of manufacturing facilities and distribution partners across the UK, Europe and the Middle East.
