Happy, healthy, high performing working & learning spaces

Cheetham CofE Community Academy, is a larger than average sized primary school based in Greater Manchester. Working closely with the school, office refurbishment consultancy firm Whitespace was briefed to transform the blank space into an inspiring, modern interior, all with the help of KI's Postura+.

Designing and furnishing each classroom with the same footprint whilst remaining flexible was key to the success of this project. As with the majority of education establishments, the school was looking for a durable, cost effective, stackable seating solution, therefore KI's Postura+ chair with its vast colour range and 20 year warranty was a natural choice.

Whitespace furnished the school with approximately 250 Postura+ chairs in complimentary colours of Lime Zest, Jet Black, Iron Grey, Slate Grey and Grape Crush, creating a visually stimulating and exciting learning environment. Postura+ high chairs in matching Iron Grey and Slate Grey were also selected and specified with 610mm sled bases to sit alongside higher tables in the classrooms

Nicola Young at Whitespace comments: "We proposed the Postura+ chairs to the school as, having used the product many times before, we knew it to be robust, reliable and practical as well as offering an excellent colour selection to enhance the interior design scheme. Offering a comprehensive range of sizes also gave us flexibility to use the chairs throughout the age range of the students."

KI's iconic Postura+ chair was the first one piece polypropylene chair introduced to the UK education market in 1996. The chair is ergonomically designed to promote good posture and provide exceptional comfort. Postura+ is available in 16 standard colours, with custom colours available.

KI Europe's furniture helps the world's leading organisations create happy, healthy, high performing working and learning spaces for their people. Bringing together good design, advanced engineering and sustainable resources, KI's products are durable, flexible and offer excellent value.
