Maintenance
MFC (Melamine Faced Chipboard) work surfaces are highly durable, resistant to staining and abrasion, and require minimal maintenance, making them ideal for light industrial or office environments.

Dust regularly to maintain a clean surface.
Use a non-abrasive cloth dampened with warm soapy water for general cleaning.
After wiping, immediately dry with a clean, non-abrasive cloth to prevent moisture damage.

Important Tips:
Avoid strong, neat, or abrasive cleaning products such as harsh detergents, furniture polish, or scouring pads — these can damage the colour and finish.
A diluted washing-up liquid or mild anti-bacterial cleaner is sufficient for routine cleaning.

If unsure, it's best to use just warm water for safe cleaning.
By following these simple guidelines, you can keep your MFC surfaces looking their best and extend their life-span with minimal effort.

Warranty Information
10 years on cabinet & standard key lock
Other lock systems as per manufacturer's warranty

Indoor Advantage Gold - Furniture
This product is certified to Indoor Advantage Gold - Furniture, making it suitable for many building rating systems, including LEED v4, BREEAM, & WELL Building.
