

Grafton HD Tablet Arm - Assembly Guide

To Fit

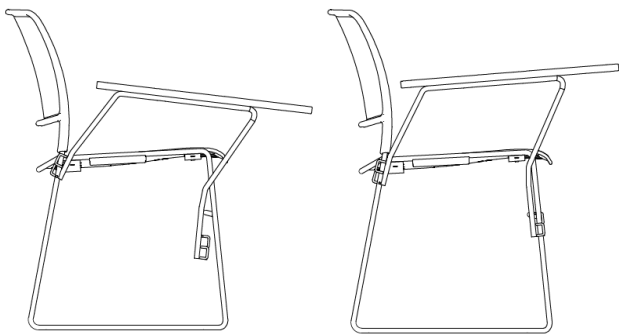

1. As illustrated in Fig A. Hold the tablet arm at an angle against the chair and hook the rear tablet arm bracket around the frame. Ensuring to hook the top part of the bracket over the crossbar so it does not slip down the frame in use.

Fig. A

2. With the rear bracket hooked in position, lift the front leg of the arm upwards (Fig.B). As the front leg is lifted the front bracket should engage with the cross rail of the chair. Keep lifting until the bracket clicks into place (Fig.C)

Fig. B

3. Make sure both front and rear brackets are positioned around the chair frame as shown.

Grafton HD Tablet Arm - Assembly Guide

To Remove

1. Release the tablet arm by pushing against the thumb tab as shown (Fig.D). This requires a firm press to release the wedge shape bracket from the cross rail.

2. Unhook the rear bracket from the chair frame. (Fig A in reverse).
