Introduction

Each piece in the LimeLite collection has been meticulously crafted in partnership with renowned designer Aaron DeJule to focus on sleek profiles, ergonomic support, and flexibility to meet your specific needs. Featuring a slim profile and contoured shape to elevate aesthetics and comfort, the cohesive, extended seating line offers design consistency with high visual impact.

25 Year Warranty

Constructed with high-quality materials such as injection-moulded polypropylene and 13-gauge tubular steel, ensuring longevity and stability.

Slim Profile

LimeLite is characterised by a sleek, ergonomic design that prioritises both aesthetics and user comfort.

Contoured Comfort

Each chair and stool is designed with a contoured architectural shape that provides responsive comfort and inherent passive flex.

Customisation

A variety of optional features including upholstered seats, cantilever arms, and tablet arms to meet diverse needs.

Integrated Handle

Integrated handles and stackable designs allow for effortless lifting, moving, and efficient storage.

Expert Design Collaboration

Created in partnership with renowned designer Aaron DeJule and the KI Design Team, ensuring each piece meets the highest standards of design and functionality.

Stacking chair

LimeLite Stacking chair offers sophisticated style and flex back comfort for a variety of spaces. Available in 4-leg, 4-leg with castors or sled base styles, this chair can be stacked up to 15-high on a dolly, making it ideal for spaces that require both functionality and flexibility.

High-Density Stacking Chair

Designed for multipurpose spaces, the LimeLite High-Density Stacking Chair offers lightweight construction and high stackability—up to 25-high on a dolly. This chair provides a sophisticated seating option without compromising on comfort or durability.

High-Density Stacking Stool

The LimeLite High-Density Stacking Stool is a versatile seating option that is easy to store and move. Stackable up to 15-high on a dolly, this stool is perfect for environments that need high-density seating solutions.

Task Chair

The LimeLite Task Chair is a dynamic seating option designed for ergonomic support and adaptability. With height-adjustable features and optional cantilever arms, this piece is perfect for collaborative and adaptable workspaces.

Conference Chair

Designed to maximise comfort during extended sitting periods, the LimeLite Conference Chair with enhanced motion offers comfort that begins with LimeLite's iconic contours and inherent flex, then builds on it by adding 13 degrees of articulation.

The Conference Chairs make the most of design-forward finish options to elevate aesthetics and create signature spaces, bringing sophistication to any conference room.

Conference Chair Key Features

Flex Comfort: 13-degrees of articulation for enhanced motion.

Design Forward: Featuring LimeLite's slim, contoured shell with a jewel-like yoke frame.

Customisable: Available with bell glides or 50mm dual surface castors adjustable height or fixed seat models and optional reverse cantilever arms with pads

Finish Options: Shell available as all poly or with upholstered seating in a variety of colours and polished aluminium or powdercoat paint frame and base options. A choice of black, warm grey or cottonwood castors and arm pads.

Café Stool

The LimeLite Café Stool combines a sophisticated look with ergonomic design, making it an ideal choice for café settings, bars, or casual dining areas. Available in 24" and 30" seat heights, the stool offers a stylish look with added flex-back comfort.

Cantilever Arms

Improve ergonomic support with optional cantilever arms, providing added comfort for extended seating periods.

Upholstered Seats

Add extra comfort with optional seat upholstery available across the collection.

Tablet Arms

Increase functionality with optional tablet arms; ideal for work or study environments.

Castors or Glides

Select between castors for mobility or glides for stability, depending on your specific requirements.

Colour Options

Customise your seating with a variety of colour choices to complement your space's design and aesthetic.
