Notes

Scrum Flip Top Tables

600mm and 800mm deep rectangular tables at 1000-2000mm widths, plus circular, semi-circular and trapezoidal tops. Flip-top tables are fully mobile on castors and can be nested together for compact storage.

Please refer to www.kieurope.com for product finishes.

Warranty Details

Steel Understructure - 25 Years

Worksurfaces/Tops - 5 Years

Moving Parts - 1 Year

Indoor Advantage Gold - Furniture

This product is certified to Indoor Advantage Gold - Furniture, making it suitable for many building rating systems, including LEED v4, BREEAM, & WELL Building.

Rectangular tops

Shaped tops

740mm fixed height flip-top nesting tables. Other top dimensions available, contact your KI Sales Manager for details. 25mm MFC top. Note: all tables require assembly.

| 600mm Rectangular Tables | |
|--------------------------|----------------|
| Size | Product Code |
| 600x1000mm | 8BD/FT/L8/0610 |
| 600x1200mm | 8BD/FT/L8/0612 |
| 600x1400mm | 8BD/FT/L8/0614 |
| 600x1500mm | 8BD/FT/L8/0615 |
| 600x1600mm | 8BD/FT/L8/0616 |
| 600x1800mm | 8BD/FT/L8/0618 |
| 600x2000mm | 8BD/FT/L8/0620 |

| 800mm Rectangular Tables | |
|--------------------------|----------------|
| Size | Product Code |
| 800x1000mm | 8BD/FT/L8/0810 |
| 800x1200mm | 8BD/FT/L8/0812 |
| 800x1400mm | 8BD/FT/L8/0814 |
| 800x1500mm | 8BD/FT/L8/0815 |
| 800x1600mm | 8BD/FT/L8/0816 |
| 800x1800mm | 8BD/FT/L8/0818 |

| 1800mm | 8BD/FT/MP/18 |
| 2000mm | 8BD/FT/MP/20 |

KI products are designed and manufactured to withstand the tough demands of work environments. Care and regular light cleaning will keep the furniture looking its best for many years.

IMPORTANT CARE & SAFETY INFORMATION

- Melamine/MFMDf and other decorative worksurfaces will naturally wear over time resulting in shiny patches, particularly parts that are regularly used for mouse control and where the worksurface comes into contact with clothes, skin etc.
- **Always use mouse mats to minimise the long-term effects of continuous contact and movement within the same area of the top.**
- Once the workstations/tables have been assembled, sited and wired they should not be moved
- Never attempt to drag them across the floor, which will stress and strain the end legs
- Avoid placing your furniture in direct sunlight, as sunlight causes fading
- Mats and coasters must be used as they offer the best protection from scratches, hot liquid and water marks
- Heavy office equipment such as printers should be placed on protective pads to avoid scratches to the worksurface
- Never drag heavy equipment across a worktop as this will damage the worksurface
- Do not immerse any part of the workstations/tables in water or any liquid
- Check all cords (power, control keypad, etc.) every 6 months to make sure there are no kinked, pinched or frayed wires

Should any items of furniture require repair, please contact KI (UK) Ltd for further information.

The guide below is intended to help where furniture has become marked or stained. Please check for colour fading in a discreet area when using any detergents or chemicals. Always follow the manufacturer of the cleaning products' instructions before use.

GENERAL CARE

Proper care and careful use are the best methods of maintaining the appearance and finish of any product. Any desk or table worksurface is vulnerable to scratching and damage.

Your workstations/tables metal understructure is finished with durable powder-coated paint. Worktops are generally Melamine Faced Chipboard (MFC) or Melamine Faced Medium Density Fibreboard (MFMDf) (laminated).

Other worktop finishes e.g. Lino or Fenix NTM® should be cleaned according to the manufacturer's instructions.

Apart from regular cleaning, KI workstations are considered to be maintenance free however the following should be observed during a bench's lifetime:

FRAMEWORK

- Where cleaning of the frame is required, a mild detergent solution should be used
- Harsh abrasives, acids, alkalis or bleaching products should not be used
- Touch-up paint in all standard KI colours is available to repair minor chips and scratches. Follow the instructions on the packaging to ensure the best results.

MFC/ MFMDf WORKTOPS

- Melamine faced worksurfaces will naturally wear over time, particularly parts that are regularly rubbed. Utilizing a mouse mat will protect against this natural wear and tear.
- Work tops are easy to maintain, simply use a damp cloth and a mild detergent or non-abrasive cleaner to keep the surface clean and hygienic
- Potential stains should be removed immediately (the use of abrasive cleaners should always be avoided)
- Use an all-purpose cleaner to remove ink stains, crayon and water-based paint marks
- Use thinners to remove oil-based paint stains (pour onto a soft cloth, not directly on the surface) - avoid contact with the worktop edging, as this will cause damage
- Never use excessive water to clean work surfaces. Wetness or excessive moisture can cause laminate worktops to swell, warp or appear to grow in thickness

TABLES SCRUM

About KI

KI's furniture helps the world's leading organisations create happy, healthy, high performing working and learning environments. Bringing together good design, advanced engineering and sustainable resources, KI's products are durable, flexible and offer excellent value.

Founded in 1941, KI has grown to become one of the world's largest, most respected furniture manufacturing groups. KI's EMEA headquarters and showroom in Central London is supported by an established network of manufacturing facilities and distribution partners across the UK, Europe and the Middle East.
