SPECIFICATION GUIDE

 MADE IN THE UK

# General Information

---

## Construction Details

18mm MFC with levelling glides.

9mm gap around all doors to provide a clean, even appearance.

Integrates seamlessly with add-on units.

Sits on raised plinth with removable front panel.

Soft close door as standard.

Wide variety of lock and handle options.

Customisable door colour combinations.

Custom sizes available.

Where applicable, bow handle option included in the price.

For finish options refer to

<https://www.kieurope.com/storage/arkus-lockers/>

## Maintenance

MFC (Melamine Faced Chipboard) work surfaces are highly durable, resistant to staining and abrasion, and require minimal maintenance, making them ideal for light industrial or office environments.

Dust regularly to maintain a clean surface.

Use a non-abrasive cloth dampened with warm soapy water for general cleaning.

After wiping, immediately dry with a clean, non-abrasive cloth to prevent moisture damage.

Important Tips:

Avoid strong, neat, or abrasive cleaning products such as harsh detergents, furniture polish, or scouring pads — these can damage the colour and finish.

A diluted washing-up liquid or mild anti-bacterial cleaner is sufficient for routine cleaning.

If unsure, it's best to use just warm water for safe cleaning.

By following these simple guidelines, you can keep your MFC surfaces looking their best and extend their life-span with minimal effort.

## Warranty Information

5 years on cabinet & standard key lock

Other lock systems as per manufacturer's warranty

Two door cupboards with removable plinth. Note 715mm high requires additional flyover top or planter.  
All units 500mm deep.
