Made in the UK

Grafton Seating: Elegant, Durable & Versatile

**30% Recycled
Polypropylene,
100% Recyclable**

Made in the UK, all our Grafton chairs contain at least 30% recycled polypropylene.

The Grafton seating collection has been designed to provide exceptional comfort, ventilation and flexibility.

The unique design features a robust, perforated backrest and rolled, waterfall edges to create a seating range that supports agile learning and working across different environments.

Perforated Backrest

The generous perforations of Grafton's distinctive injection-moulded backrest provide better ventilation and flexibility. This unique feature was created to offer the comfort of a mesh backed chair without compromising on durability.

Rolled Edges

The rolled edges of the backrest are mirrored on the seat shell to create a waterfall edge for enhanced comfort.

Task Chair

Stacking Stool

HD Stool

Task Stool

Stacking Chair

Our 4 Leg and Sled Base chairs can be conveniently stacked up to 8 high (6 if upholstered), 12 on a dolly allowing for easy storage and space optimisation.

Stacking Stool

Maximise space with our stackable, poseur height stools, stacking up to 4 high, and including upholstered options.

Featuring a footrest for added comfort and practicality.

Task Chair

14

The Grafton Task Chair comes with glides or castors for maximum comfort and productivity.

15

Task Stool

The style and durability of the Grafton range at height, the Task Stool boasts a sleek chrome foot ring, as well as glides for elevated support.

Task Stool Foot Ring

NEW

Grafton HD Collection

Our Grafton High-Density Collection features a chair and stool designed for large, adaptable spaces. Featuring the same injection-moulded polypropylene seat with perforations designed to replicate mesh-back seating along with rolled, waterfall edges, this range comes in 6 polypropylene colours and 4 frame options with a variety of optional accessories:

- Armrests
- Tablet arms
- Upholstery
- Linkable glides

NEW

HD Stacking Stool

Perfect for high-traffic, dynamic environments and café areas, the HD Stool can stack up to 6 high and comes in two heights including a poseur height stool.

NEW

HD Stacking Chair

Designed for maximum space saving, this chair can be stacked up to 8 high or 32 on a dolly, making it the ultimate space-saver for large venues, conference rooms, and event spaces.

Care & Maintenance Instructions

Proper care and maintenance are essential for preserving the appearance and finish of your Grafton Seating. Here are some guidelines for each component:

Polypropylene shells

To clean the poly shells, use a soft cloth with mild soap or detergent and lukewarm water. Avoid using solvents, citrus/orange-based cleaners, or heavy-duty kitchen cleaners. Wipe dry immediately. For light cleaning and restoring the lustre of smooth surfaces, use a non-abrasive all-purpose cleaner. High-quality wax can also be used to protect the finish.

Powder-coated & chrome metal frames

For powder coated metal frames, use a mild solution of water and detergent. Always rinse thoroughly with water and dry with a soft cloth. It is recommended to protect frames from water, rain, ice, snow and salt. For gloss finishes, use a silicon-based spray polish. For thin surfaces scratches, wipe with thinners or spray with clear lacquer. Deep scratched can be sanded with emery paper, cleaned and repainted with appropriate spray gloss / matte paint. Always ensure colour matching by spraying onto white photocopy paper for reference.

Laminate surfaces

To clean laminate surfaces, use an all-purpose cleaner to remove ink stains, crayon marks and water-based paint stains. Use thinners to remove oil-based paint stains (apply onto a soft cloth, not directly on the surface). For superficial surface scratches, use linseed oil. Avoid using thinners on PVC edging, as it may cause damage. Do not use excessive water to clean work surfaces, as it can lead to warping or thickness changes.

Vinyl fabric

For vinyl fabric upholstery, use warm water with normal dishwashing liquid and a soft cloth. Dry with a clean, soft cloth.

Polyester & wool fabric

To clean polyester and wool fabric upholstery, use dry carpet pellets or powder for wet stains. Let the area dry and brush off or vacuum. For dry stains, apply a standard upholstery cleaner foam, spray lightly, let it sit for 5 minutes and brush off.

Packaging & Shipping

We believe in responsible packaging. Our Grafton Seating is shipped in 100% recyclable cardboard cartons, with 1 task chair or 2 stacking chairs per carton.
