Introducing Sutton

Sutton is the newest addition to our collection of one piece chairs. A designed chair suitable for a broad range of markets including offices, hospitality, student accommodation, classrooms, higher and further education. The Sutton chair has the strength, stability and durability of a one piece product, with a nod to the aesthetics of a mid-century mixed material classroom chair. Available in 5 colours, classic Iron Grey, as well as Denim, Lagoon, Latte, and, Terracotta as selected by global trend experts, Scarlet Opus.

Sutton contains a blend of high-impact resistant glass filled polypropylene with gas-injection for outstanding strength and longevity. Sutton is lightweight, stain-resistant, antistatic, antirocking and easy to clean.

Made in the UK

High-impact resistant
glass filled polypropylene

Suitable for occasional outdoor use

20 year warranty for structural defects

Stacks to 6 on floor and on trolley

Supports weight of
up to 204kg

Gas-injection for outstanding
strength and longevity

Curved backrest and waterfall seat edge
for superior flexibility to maximise comfort

Made from 30%
recycled polypropylene

Certifications & Standards

Indoor Advantage™ Gold – Furniture
This product has been independently assessed by SCS Global Services to be certified for low volatile organic compound (VOC) emissions. The Indoor Advantage™ Gold standard aligns with both ANSI/BIFMA M7.1 and X7.1, and CA01350. Suitable for projects aiming to achieve SKA, BREEAM, WELL, LEED v4 and more. It contributes to LEED low emitting materials credits and WELL Credit 04 for VOC reduction.

SCS Recycled Material Certification

Sutton chairs are manufactured using a polypropylene and glass-fibre blend that contains 30% postconsumer recycled material. This has been verified through SCS Recycled Material Certification, a third-party certification that verifies the percentage of recycled material within a product by weight.

BS EN 1729

Part 1: Functional dimensions (measurements and size markings).
Part 2: Safety requirements and test methods (strength and safety tests).

BS EN 16139

Strength & stability – severe contract use.
Sutton chairs are certified to this standard.

Care & Maintenance Instructions

Proper care and careful use are the best methods of maintaining the appearance and finish of any product.

For regular cleaning of chairs use a soft cloth with mild soap or detergent and lukewarm water. Avoid solvents, citrus/orange-based cleaners or heavy-duty kitchen cleaners. Stubborn spots like chewing gum can be removed using lighter fluid. Wipe dry immediately.

To restore lustre to smooth surfaces and perform light cleaning, a general non-abrasive all-purpose cleaner is recommended. Its antistatic properties help repel dust and dirt. High-quality wax can be used to restore lustre and provide protective coating.

Materials Information

Glass filled polypropylene.
30% post-consumer recycled polypropylene.
100% recyclable.
